DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 5 and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Duroyon (US Patent 4,437,209).

Duroyon teaches a stuffing method and apparatus which are structurally similar to the Applicant's claimed method of advancing a natural casing along the length of a hollow meat stuffing tube. More specifically, the method includes "placing a hollow natural casing 27 on the outside surface of a hollow stuffing tube ", "placing a follower 72 against an upstream end of the natural casing to slide the natural casing forwardly along the stuffing tube towards a discharge end", "placing a hollow conical shaped restrictor 65 on the stuffing tube with a smaller diameter end 63 adjacent the discharge end of the stuffing tube to decrease the diameter of the natural casing as it is being slidably moved towards the discharge end of the tube" and "placing a twisting mechanism 40 in spaced relation to and located downstream from the hollow conical shaped restrictor 65".

In regards to claim 6, a longitudinally movable shaft structure(unnumbered and connected to element 116 as shown in Figures 1 and 2) is provided parallel to the stuffing tube and connected to the follower.

Conclusion

Summary: Claims 1, 5 and 6 are rejected.

All claims are drawn to the same invention claimed in the application prior to the entry of the submission under 37 CFR 1.114 and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the application prior to entry under 37 CFR 1.114. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action after the filing of a request for continued examination and the submission under 37 CFR 1.114. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
